Professional Summary

****Full Stack Developer****

With a deep-rooted background in Python, Flask, Streamlit, LangChain, React.js, JavaScript, and Tailwind CSS, I am a seasoned Full Stack Developer adept in creating AI tools integrated with Gemini Pro or Gemini Pro Vision and OpenAI API like ChatGPT.

My GitHub profile attests to my extensive experience, showcasing projects such as "Creator-GPT," an AI-powered tool for content generation on multiple platforms. This project underscores my proficiency in AI technologies, particularly Python and JavaScript.

Furthermore, I have successfully developed the "Leaf Disease Detection System," utilizing Gemini Pro Vision to diagnose diseases in leaves. This project demonstrates my ability to leverage AI in practical, real-world applications.

I prioritize delivering exceptional results and relish the opportunity to tackle complex projects. My expertise and unwavering commitment make me an ideal candidate for your project. I am eager to collaborate and bring your vision to fruition.

Skills

Large Language Models (LLM), LangChain, AI
